

Patches Says: "This is Mr. Mills' second drugstore. He built it to replace THE PILLBOX when he needed a bigger store."

This is a two story building. Sometimes families lived on the second floor and ran the store on the ground floor. Print this page and color the picture like you think Mr. Mills' drugstore may have looked. Be sure to put the name of his store somewhere on the building. Can you think of any stores in Aberdeen where the owners live upstairs?
